

HEART BEAT CLUB

Join us

Your child's life is in your hands.
Would you know what to do?

Every parent's worst nightmare is something happening to our children and not knowing what to do.

Join us at the Heartbeat Club Infant & Child First Aid Course and gain the skills, confidence and calm you hope you'll never need – but will be so grateful to have. In just a few practical, hands-on hours, you'll learn how to respond to including choking, burns, poisoning, falls and shock. You'll also learn preventive measures and understand how to create a safer environment to reduce the risk of serious injuries. Royal Lifesaving WA will walk you step-by-step through infant and child CPR, so you leave feeling prepared – not panicked.

Whether you're a parent, grandparent, carer, educator or simply someone who loves a little person, this course is empowering, supportive and designed for real-life situations. Because when seconds matter, confidence counts.
